<u>Description</u>
Press Release of Aldeyra Therapeutics, Inc. dated August 4, 2014.

Aldeyra Therapeutics Reports Second Quarter 2014 Financial Results

Burlington, MA, August 4, 2014 – Aldeyra Therapeutics, Inc. (NASDAQ: ALDX) (Aldeyra), a biotechnology company focused on the development of products to treat diseases thought to be related to free aldehydes, today announced its financial results for the second quarter ended June 30, 2014.

Todd C. Brady, M.D., Ph.D., President and CEO of Aldeyra, commented, "We continue to prepare for upcoming clinical trials and are on schedule to file Investigational Drug Applications for two rare diseases, Sjögren-Larsson Syndrome and acute anterior uveitis, by the end of the year, and we continue to expect data from these trials next year. For Sjögren-Larsson Syndrome, there are no FDA-approved therapies, and acute anterior uveitis is typically treated with steroids, the long-term use of which is associated with significant toxicity. We are excited about the prospect of providing Sjögren-Larsson Syndrome and acute anterior uveitis patients with improved treatment options that are not available today, and look forward to updating our shareholders as we continue to make progress."

"In addition, we have continued to execute on our business strategy with the expansion of our management team and preparation for the initiation of clinical trials for our lead product candidate, NS2. Notably, we hired Stephen Tulipano as our Chief Financial Officer. Steve has considerable experience in both financial accounting and the pharmaceutical industry, and he will be a significant asset to our team as we seek to strengthen our financial positioning and pursue growth opportunities. "

Second Quarter 2014 Financial Review

For the second quarter of 2014, Aldeyra reported a net loss and comprehensive loss of approximately \$1.1 million compared to approximately \$1.6 million for the second quarter of 2013. Basic net loss per share was \$1.43 and diluted net loss per share was \$1.56 for the second quarter of 2014 and basic and diluted net loss per share were \$5.47 for the second quarter of 2013. Net loss per share for the respective period includes the effect of the change in fair value of derivative instruments carried as liabilities on the balance sheet that are marked to market at the end of each reporting period. As of June 30, 2014, there were no derivative liabilities outstanding as a result of the net exercise of those instruments.

Research and development expenses totaled approximately \$664,000 for the second quarter of 2014, compared to approximately \$325,000 for the second quarter of 2013. The period-over-period increase of \$339,000 in research and development expenses was primarily related to an increase in Aldeyra's external research and development expenditures and stock-based compensation.

For the second quarter of 2014, general and administrative expenses were approximately \$983,000 compared to approximately \$661,000 for the second quarter of 2013. The increase of \$322,000 is primarily related to the addition of general and administrative personnel and other

compensation costs, and an increase in costs associated with preparing to become a public company.

Total operating expenses for the second quarter of 2014 were approximately \$1.6 million compared to total operating expenses of approximately \$1.0 million for the second quarter of 2013.
