

Aldeyra Therapeutics Schedules Conference Call and Webcast to Announce Top-Line Results from the Phase 2 Clinical Trial of ADX-2191 in Patients with Retinitis Pigmentosa

June 28, 2023

LEXINGTON, Mass.--(BUSINESS WIRE)--Jun. 28, 2023-- Aldeyra Therapeutics, Inc. (Nasdaq: ALDX) (Aldeyra) today announced it will host a webcast and conference call on Thursday, June 29, 2023, at 8:00 a.m. (ET) to provide top-line results from the Phase 2 clinical trial of ADX-2191 in patients with retinitis pigmentosa.

The dial-in numbers are (888) 415-4305 for domestic callers and (646) 960-0336 for international callers. The access code is 5858366. A live audio webcast of the conference call also will be accessible from the "Investors & Media" section of Aldeyra's website at <u>ir.aldeyra.com</u>.

After the live webcast, the event will remain archived on Aldeyra's website for 90 days.

About Aldeyra

Aldeyra Therapeutics is a biotechnology company devoted to discovering innovative therapies designed to treat immune-mediated diseases. Our approach is to develop pharmaceuticals that modulate immunological systems, instead of directly inhibiting or activating single protein targets, with the goal of optimizing multiple pathways at once while minimizing toxicity. Our product candidates include RASP (reactive aldehyde species) modulators ADX-629, ADX-246, ADX-248, and chemically related molecules for the potential treatment of systemic and retinal immune-mediated diseases. Our pre-commercial product candidates are reproxalap, a RASP modulator for the potential treatment of dry eye disease (under U.S. Food and Drug Administration New Drug Application Review) and allergic conjunctivitis, and ADX-2191, a novel formulation of intravitreal methotrexate for the potential treatment of proliferative vitreoretinopathy and retinitis pigmentosa.
